

QUESTIONNAIRE

Client and planned enterprise details

General information about the client and the enterprise
Name of the enterprise (facility):
Enterprise address (location of the planned or existing facility):
Legal entity name or full name of the individual:
Registered address (actual address):
Contact person:
Phone:
Fax:
E-mail:
Date completed:

Planned technical parameters of the enterprise
Poultry species (turkey, broiler, laying hen, duck, goose, pheasant, etc.), cross:
Production volume:
Hatchery (yes/no):
Parent flock (yes/no):
Or other sources of flock replacement:
Types of processing (slaughter, slaughter and cutting, further processing, etc.):
Processing of manure or poultry litter (yes/no):
Processing of slaughter by-products:
Processing of feathers and down:
Planned feed sources (own or external):

Industrial site information
Total plot area, ha:
Plot dimensions and shape:

Terrain of the plot:	
The site borders on:	
	to the south: (distance, m)
	to the north: (distance, m)
	to the west: (distance, m)
	to the east: (distance, m)
Distance to the nearest residential area (recreation area), m:	
Buildings and structures on the industrial site, year built, availability of as-built documentation for them:	
Railway siding on the industrial site:	
Trees and green areas on the site:	
Existing utility structures and networks:	
Need to relocate main utility lines (boiler house, transformer room, gas pressure regulating station, substation, treatment facilities, etc.):	
Topographic survey and geotechnical investigation materials available, year completed:	

Site location plan of the surrounding area (scale 1:2000) showing municipal utilities:

Power lines nearby that can be connected to (___ kVA):

Municipal water main nearby that can be connected to (yes/no):

Possibility of drilling artesian wells (yes/no):

Wastewater discharge (municipal sewer / to the ground):

Additional information: _____

If possible, please attach photos of the existing farm for a preliminary assessment of its condition and modernization potential.
